## Rockport Fishing Charters

---

### Rockport Expert for Your Fishing Charter

Rockport is known for fishing. There's an old saying, "Go to Port Aransas to party and come to Rockport to catch fish" There's a lot of truth in that. My Rockport trips leave from Goose Island State park or Cove Harbor depending on the weather and time of year. If you prefer Redfish we'll take my 20 foot Panther airboat and catch Redfish and Drum. If it's Trout you want first, we'll take the 24 foot Kenner.

Fishing Rockport means we will be fishing the deep water reefs for Trout, the shallow water of Estes Flats for Redfish and Trout and the back water lakes on accessible by airboats for Redfish and Drum. Weather and time of year dictates what area we'll be in and what type of fishing we'll do.

Rockport fishing is very good. If you'll listen to me and let me tell you the best way to catch fish, we should do well. I can't control Mother Nature, but I'm on the water almost every day and I keep up with the fish by staying on top of them and I usually know where they are.

On all my trips you will need a fishing license if you're over 16 years of age. Make sure they give you the Redfish tag. Ask them to show it to you. It'll say "Valid for one Red Drum over 28 inches". If you don't see it, you didn't get it. It's sad when customers catch a good Redfish and can't keep it because the clerk at the licensing store didn't print the right tag.

### Port Aransas Fishing Charters

Fishing Port Aransas is always fun. We will be fishing the outside beaches of Traylor Island, the very shallow water flats of Estes, and maybe the deeper water of Corpus Christi Bay depending on the time of year and the weather. If Mother Nature is really kind we might even get out

around the jetties and catch Trout in the surf or Kingfish off the end of the jetty. The close proximity to the gulf means you never know what you're going to catch on any given day.

I leave from Fisherman's Wharf. I'll pick you up at the back of the dock and upon return, we'll have your fish cleaned and packaged at Fisherman's Wharf. They can even freeze your fish and keep it stored until you're ready to head home. There is a small charge for the fish cleaning that is not included in my fishing prices. Port Aransas does not have place for me to clean fish at the dock.

Fishing in Port Aransas is very good. If you'll listen to me and let me tell you the best way to catch fish, we should do well. I can't control Mother Nature, but I'm on the water almost every day and I keep up with the fish by staying on them and I usually know where they are.
